primesign

digital signing, simple as that.

COMPREHENSIVE
E-SIGNATURE WORKFLOWS

primesign ENTERPRISE

powered by emSIGNER

primesign ENTERPRISE is a secure and powerful e-signature solution with comprehensive workflow and form support. It enables organizations of any size to design, manage, and control their signing processes digitally with employees, customers and business partners.

By replacing paper-based workflows, primesign ENTERPRISE saves valuable time, cuts costs, and eliminates bottlenecks. At the same time, it ensures maximum security, compliance, and trust by using EU-legally-binding, eIDAS-compliant signatures.

Whether in HRM, finance, or legal departments, primesign ENTERPRISE empowers organizations to manage signing processes efficiently and remotely, while offering customers a modern, anytime, anywhere digital experience.

IN A NUTSHELL

Simpler Signing, Faster Workflows.
End-to-end paperless transformation.

Legally recognized signatures across Europe, **eIDAS-compliant**

Multi-party workflows, **serial & parallel, powerful templates**

Bulk signing

Mobile-friendly, **on-screen** signing & **signature pad** supported

Simultaneous **digital onboarding** supported

On-Premise, Managed Service or **Cloud** (EU hosting)

Seamless **system integration** capability

YOUR CHALLENGES

— Wet signatures slow down and disrupt your workflows

— Costs of printing, storage and manual administration are rising

— Increasing regulatory and client demands for digital, paperless processes

— Increased concerns about data security and regulatory complexity driven by the shift toward cloud-only solutions

— AI and globalization create challenges for workflows, especially regarding onboarding, compliance and cross-border collaboration

— Disconnected systems and manual processes create inefficiencies, driving the need for off-the-shelf integrations

OUR SOLUTION

primesign ENTERPRISE is a enterprise workflow solution with support for global e-signatures and powerful capabilities for digital transformation of business processes.

— End-to-end electronic handling of documents

— Simple, advanced and qualified eIDAS compliant electronic signing seamlessly integrated in one platform

— On-Premise, Managed Service oder Cloud (EU-Hosting)

— Off-the-shelf integrations into common workflow systems, including core-banking, ERP, CRM & HRMS
